Mayor Tholass said they would do nothing for show. Commissioner Curris inquired of the Governor when they would be likely to get the \$30,000.

Governor Kivs asked whether the Commissioner meant the money expected from the Comptroller.

Commissioner Curris said he did.

Governor Kivs could not tell, although he did not think that the Comptroller sught to refuse it. There was always a min of \$500,000 erovided for by the Legislature in the hands of the Comptroller. This sum was invariably left transpropriated, except in case of any great calamity or public emergeacy. The question would be whether the burning of the nospitals at Quarantine could be classed among sock calamites, and thus come within the meaning of the law. He (the Governor) would, however, see the comptreller and the Attorney General, and discuss the matter with them.

#### COMMISSIONERS OF MEALTH. The Commissioners of Health met at the usual hour and are yesterday, his Honor, the Mayer, presiding.

The following report from the Health Officer was re ved, accepted, and his recommendation concurred in:-

TO THE MAYOR AND COMMISSIONERS OF HEALTH OF THE CITY OF NEW YORK or New York—
I have to report that the bark blavest and the brig Times have each rode out the quarantine prescribed by static and by the regulations of your honorable floard. They have each discharged carge, and no efforts have been spared by their captains and consignees to cleanes and put them in condition to proceed to the city. Judging them to be free from infection, I do recommend that they be allowed to proceed.

Quaranting Sept. 20, 1888.

A few days are 1888.

A few days ago a committee of the Chamber of Commerce waited upon the Meyor and complained that the grievous charges for lighterage and other work at Quaran were exceedingly exorbitant. The Mayo, was unable to give a decided answer, but referred to the Ecath Offi-cer for a full report on the subject. This officer acted upon the directions of the Commissioners of Health and prepared the necessary statement, whereupon his Honor addressed the annexed important communication to the Committee of the Chamber.

To ROYAL PRELIS AND OBERRS, COMBITTER OF CHARBER OF COMMERCE.

In compliance with yoursecquest I have carefully examined into the proceedings of the Health Officer and Commissioners of Health relative to the inflierage and discharging of infected cargoes at Quarantine, with a view to ascertain whether the complaints made to your Beard respecting the same are well founded or not. In explanation and dernial of these complaints and of others which have been made relative to but ness transacted there, several sworn statements have been presented to me made by pursons employed at Quarantine, giving a hasser of their employments and the various prices charged by them for services and the various prices charged by them for services and the various prices charged by them for services and the person of the completion of the company of the completion of the confection of transacting various kin of business at Quarantine, as to put you in possible of facts which in connection with others to which I had presently refer, leading to the completion of the

erspe and stevesicing, so that they might employ whom they pleased. Such permission was released, and they therefore made complaint to the Mayor and Commissioners of Health that the parties already selected for such services were charging exorbitant prices for their lator. The Mayor and Commissioners, considering the complaint in the native of an appearance of the matter, and called upon him for a statement of the reasons which governed him in the course he had pursued. We had the matter under consideration for several days, the parties complainting appeared before us. I saremuted evidence to what prices are now charged, and what have been beredoftee to what prices are now charged, and what have been beredoftee to what prices are now charged, and what have been beredoftee to what reasons which had controlled him in the coarse he had pursued, among which were the following, viz. That his official position was such that the community would hold him for that protection for valuable eargest arriving at Quarantine, which the selection of bounds, careful and responsibility the law had, in his judgment, very properly and justify clothed him with the power to determine who should and who should not be entrusted that it would be unjust to hold in him responsibility the law had, in his judgment, very properly and justify clothed him with the power to determine who should and who should not be air match that it would be unjust to hold in him responsible for the conduct of the persons engaged in that business if he could not control their selection; that in past years much complaint had been made at the loss of portions of valuable eargues by the and otherwise, the charge of the Epherage business, and atother to take charge of the severedoring who postessed stiffs her alternative to a severedories and lighterment, that he persons who applied for permits for that pursued, which have been postessed to discuss the consequence of the severedories, had at control of the present department, and atother him to account the point o

The Board then passed a resolution to the effect that vessels arriving at this port without any sickness on board shall be detained in the lower bay four days, and those having sickness eight days.

The rule of the Board, prohibiting vessels from Charleston, New Orienas and Savannah, from coming to the city to discharge, was resconded.

The favorable change in the weather was the cause for the alteration of the rules.

The schooter Fainny was permitted to proceed to Hunter's Point for repairs of Friday next.

THE REGULARS' AND PROPIR'S GENERAL COMMITTEES. ference committees from these two democratic organiza tions met last night at Mozart Hall, pursuant tu advertise ment. The business was private and did not transpire.

It is understood, however, that the two organizations are to come together so as to show a united front against Old Tammany. The regulars claim to have nearly 10,000 active democratic voters on their rolls in the respective wards, who will act as one man in opposition to the behests of the Tammany General Committee. The alleged unfair treatment the anti-Tammany folks received at Syracuse was severely commented upon by the members of the two committees hast night, and though all are in favor of supporting the State ticket, they are determined to do semething to convince the democracy of the State that they are a power in the city that future State Conventions must not disregard. Sentiments were freely expressed last night in favor of nominating a clean county ticket of their own in opposition to that of Tammany Hall.

in which the inventor has been using and testing its qualities in
private smang his namerous relatives and acquaintances. A
multitude of sufferers who have been cured by its agency will
readily attest to its unexampled virtues in the cure of the above
mentioned diseases. As certain as the medicine is administered, so certain will the cure follow in all cases, except those in
which the disease has reached a fatal point. Many a mother asshe drops the grateful tear upon the rosy check of her smiling
infant points to the specific as the only remedy that saved the
child from that most fatal mainty, cholers infantum. All ages,
from infancy to the extreme of years, are alike benefitied by
it, and the certainty of its curative effects has established its
victues.
